Genesis Ceiling Systems

Genesis RP Ceiling Grid & Covers

Genesis RP (suspended) Grid

Features

- Eliminates rust and white corrosion
- Low-cost alternative to existing high-humidity systems
- Available in a wide range of colors and finishes
- Handles interior or exterior high-humidity or corrosive environments
- Quick-lock keyhole system offers easy installation
- High-grade PVC vinyl eliminates damage and scratches during installation and transportation
- Works with most standard 2' x 2' or 2' x 4' acoustical ceiling tile designed for $^{15}/_{16}$" grid

Specs

- Fire Rated (ASTM E84) Flame Spread & Smoke Index Class A
- Safety approved for food manufacturing/processing
- Rust and corrosion resistant
- Made of white, virgin-grade PVC vinyl, metallic finishes made of virgin-grade vinyl with hot foil laminate
- Works with most standard 2' x 2' or 2' x 4' tile designed for $^{15}/_{16}$" grid

Genesis RP Grid Covers

Features

- Will not rust or show scratches
- Simple, one-person installation
- Available in a wide range of colors and finishes
- Works on 2' x 2' or 2' x 4' ceiling grid systems
- Pre-notched main covers provide seamless transitions at cross tee intersections
- Components are factory-cut to standard grid dimensions
- Eliminates costly facility downtime for demolition and replacement

Specs

- Fire Rated (ASTM E84) Flame Spread & Smoke Index Class A
- Safety approved for food manufacturing/processing
- Rust and corrosion resistant
- Made of white, virgin-grade PVC vinyl, metallic finishes made of virgin-grade vinyl with hot foil laminate
- Works with any Imperial or Metric grid systems
  (may not be compatible with certain shadow-line tile types)
